

Exchange person data between clubs

You can call this function via the menu **Setup/Clubs+Courses/Change clubs**.

Please make a [Fast backup](#) beforehand.

This function may be useful when a club significantly changes or when a certain group of persons in your database is to be assigned to another club:

Select the club that is to be replaced:

Exchange this club
  

with this text:

...to this club (for all persons)
  

only for this persons group:
