# **Installing the PDF Creator**

## **Install PDF Creator**

First check whether an older version is installed and uninstall it if necessary!

The PDF Creator can be installed using the following macro:

PDF

If you click on **Standard installation** in the following dialogue, the PDF Creator will be installed directly without any further queries.

### Set settings

🔥 PDFCreator	—		×
PDFCreator 2.3			
PDFCreator allows to create PDF documents from any application print. Creating a PDF document is easy:	n that is a	able to	
1. Set up your profiles and settings here			
2. Print any document to the printer 'PDFCreator'.			
3. Save your PDF or send it as mail.			
To get help, hit F1 or the question mark.			
2 Application Settings	Profile	Settings	

- 1. The profile must first be created.
- 2. Then a printer can be created with this profile.

#### **Create profile**

Via the + button to create a new profile.
