Buttons: OK, Abbruch

Please fill in the field **Designation** field with your desired designation. The **identifier** is assigned automatically by PC CADDIE.

As soon as all price levels have been defined, they will be displayed in an article under **Details** and the tab **Price levels** tab:

The screenshot shows two windows. The 'Artikel' window on the left contains fields for article number, description, group, and price levels. The 'Artikel-Details' window on the right shows a list of price levels with their respective prices. The 'Details' button in the 'Artikel' window is highlighted with a red box.

Please insert your own prices in the line provided for the respective price level.

At what time does which price apply? You define the answer in the rules. Under **Edit price level rules** enter the corresponding rules for the price levels defined in your hotel.

The screenshot shows the 'Preisebenen' window with a table of price levels. The table has columns: Bezeichnung, Preisebenen, Tage, Von, Bis, Zeit, Gruppe, Raten, Logik. A rule is shown for 'Weihnachten' with price level 'HOC' and dates '24.12.18' to '06.01.19'. The bottom of the window has buttons for 'Neu', 'Bearbeiten', 'Löschen', 'Höher', and 'Tiefer'.
