Manage your tournaments in the PC CADDIE://online tournament management from start to finish. Inform your customers online, and enjoy lively bookings and satisfied, informed customers.

Installation

Set up the tournament management

After you have received the access data for PC CADDIE://online tournament management, you must still check the following settings in PC CADDIE. Click **Competitions/...new, edit, delete** and select the desired tournament.

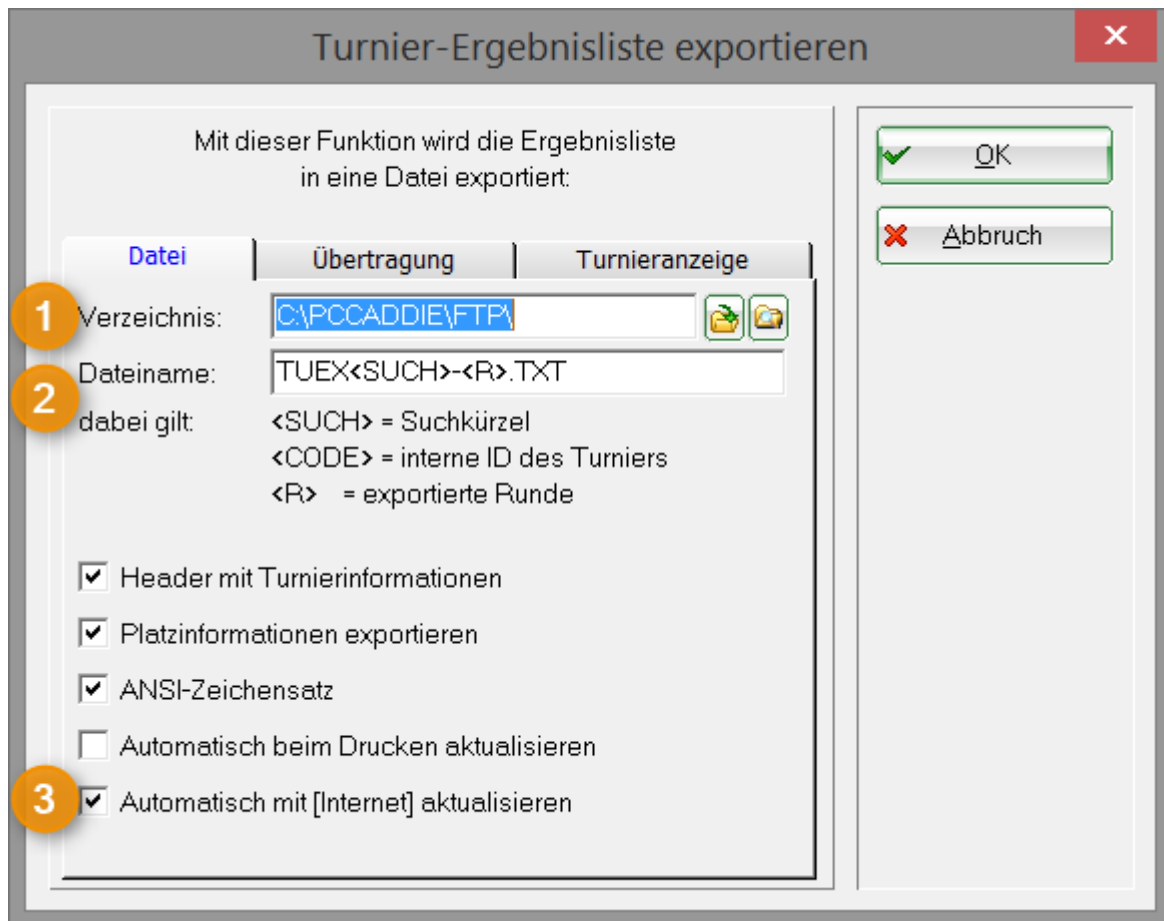

The screenshot shows the 'Turnierdaten' (Tournament Data) window for 'PC CADDIE://online Weihn. - 24.12.15'. The window is divided into two main sections: 'Name, Datum, Platz' and 'Ausschreibung' (Tournament Description). The 'Name, Datum, Platz' section includes fields for 'Kürzel' (15022), 'Name' (PC CADDIE://online Weihnachtscup), 'Lochzahl' (18), 'Datum' (24.12.15), and 'Platz' (9001.1.1.1). The 'Ausschreibung' section includes fields for 'HCP-Grenze...', 'Spielform' (Fertige Spielkombinationen: Einzel-Zählspiel nach Stableford), 'Stechen' (Schwerste/Leichteste), 'Blind-Hole' (Nein), 'Jahrespreiswirks.' (Nein), 'Intern/Gäste' (Offen), and 'HCP-wirksam' (Normal wirksam). On the right side, there is a vertical sidebar with various buttons: 'Projekt', 'Neu', 'Sichern (F11)', 'Löschen', 'Kopieren', 'Spieler', 'Ergebnisse', 'Drucken (F8)', 'Nenngeld', 'Abschluss', 'Internet', 'Online', and 'Ende'. An orange arrow points to the 'Online' button, which is highlighted with a yellow border.

Click on **Online**.

Now click on **Parameter** again. Make the settings according to the following window in the tab **File**:

1. The correct **directory** must be entered. The path should lead to the PC CADDIE main folder (usually on the server), in the PC CADDIE folder and its sub-folder FTP.

Please use the UNC path.

2. Here the **File name** should look like this: TUEX<SEARCH>-<R>.txt. As a result, each export is saved in its own text file in the directory described above. The command <SEARCH> is always replaced by a different number. <R> stands for the respective round in a multi-round tournament.
3. Make sure you check this box.

1. The **transfer to PC CADDIE://online** works only with correct data.
2. The login always matches your club number with the country code before it. You will receive the password from your [PC CADDIE://online customer service](#), and it is the same as the one for the external access to [PC CADDIE://online Club manager](#).

1. Here you will find general release settings regarding publication.
2. This hook ensures that all players are displayed for a multi-round tournaments.
3. With this button you can change the configured response texts.

Please note that these are displayed online and you should normally not change them.

4. All tournaments can be exported via this function for a period of time. Please contact us if you want to save these exports in the FTP folder in PC CADDIE://online **Tournament management:** PC CADDIE://online **customer service.**

If you have made all the settings, confirm this window with **OK**. Confirm the still opened window in PC CADDIE with **Send**; the following window opens.

If this window opens, your settings are perfect.

Worth knowing:

- These settings are usually made by the PC CADDIE://online **customer service.**
- Please make a note of the password data.
- If you do not have a permanent Internet connection, you may get error messages because the system was unable to connect to the Internet. Please contact us in this case so that we can automate your settings.

Set up real-time login

The following points should be noted during real-time login:

- The [PC CADDIE://online Tee time Service](#) makes a short connection every 5 seconds to the server in the PC CADDIE://online data center and checks for new registrations.
- If a proxy server is installed, please note the appropriate settings regarding the [Firewall and access rights](#).

Tournament management

Create tournament in PC CADDIE

Of course, this guide cannot replace the [Online documentation for Pcc's tournaments](#), this is referring to the tournament management in PC CADDIE relevant for the PC CADDIE://online tournament management.

First, create any tournament in PC CADDIE; the marked fields are of particular importance for the module:

Book direct debit for Internet registration

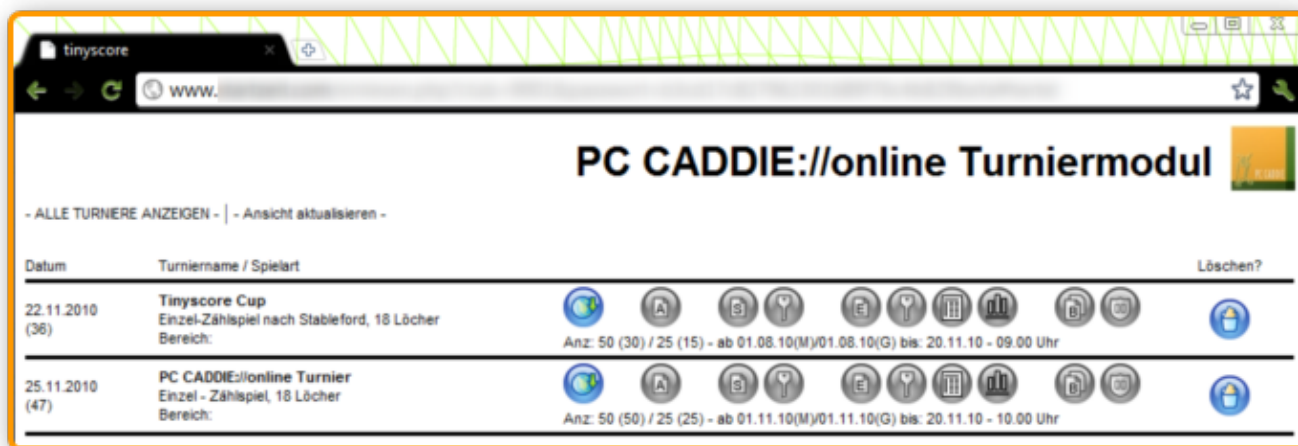

Book the debits for the internet registration after the tournament.

HINT: Other buttons:

- The button **Copy** (F6) You could copy already made settings from a similar tournament. Of course, the data still needs to be adjusted. But for the recurring monthly competitions this button can be very helpful. Always keep in mind that you are copying to a NEW tournament from an OLD tournament.
- The button **OK** transfers the information and opens the tournament administration (browser window).

Transferring tournament data to the server

The PC CADDIE://online Tournament administration opens after a successful transfer of the tournament.

One-round tournaments

You should transfer the one-round tournaments at least three times:

1. For **inclusion** in the tournament calendar/online-registration
2. After creating the **Start list**
3. After the tournament is finished, to transfer the **Results**

The report management can be taken care of later.

Multi-rounds tournaments

Multi-rounds tournaments are transmitted with **Internet/OK** after each completion.

Elements of tournament administration

After transferring a tournament to the server, the tournament administration opens, allowing you to make individual settings.

Find out here what you can do with each of the buttons.

HINT: An active button (= blue) indicates something, a non-active button (= gray) does not show anything. Press F5 to update.

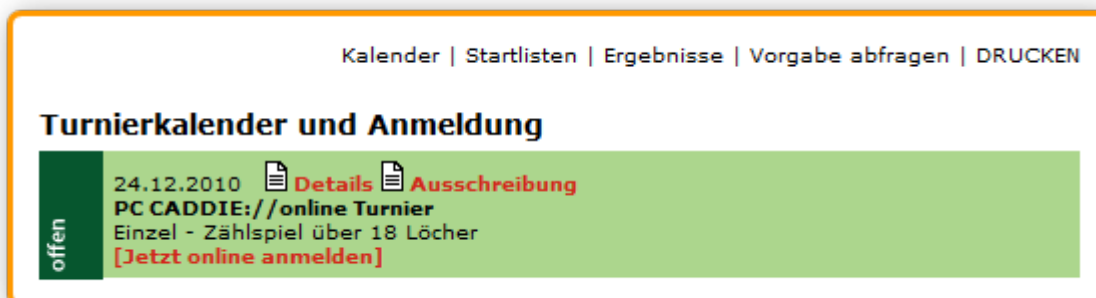

Online tournament registration

If you have entered the corresponding values in PC CADDIE, you can now activate the online registration. Click on the button. This button becomes active as soon as you transfer the tournament for the first time.

View of the tournament administration:

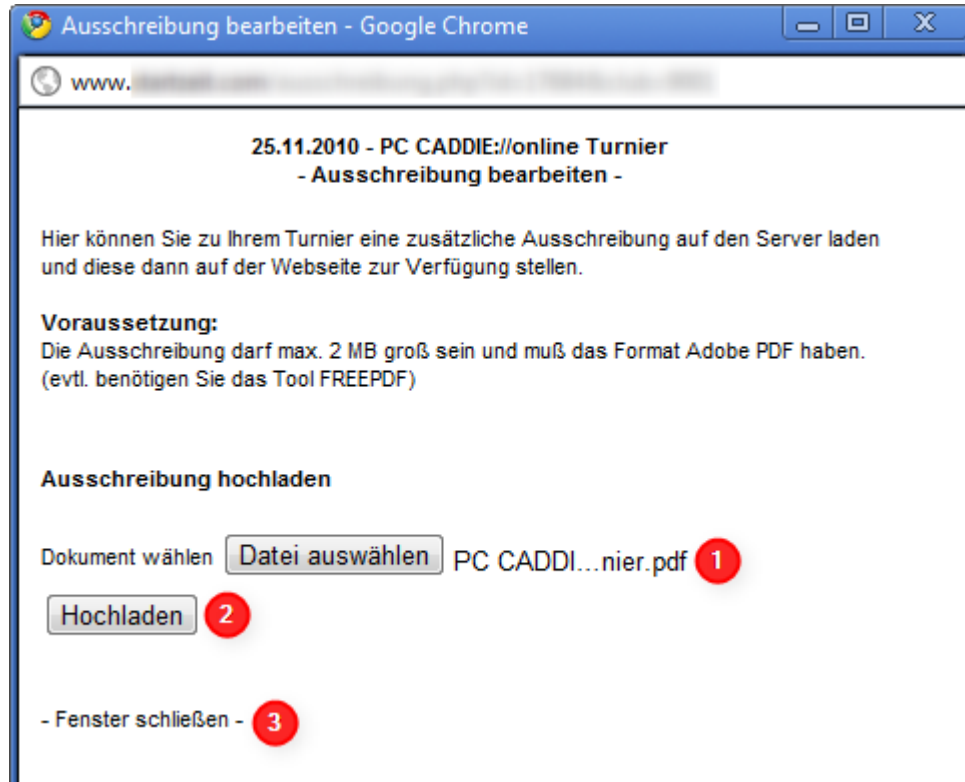

View on your website:

Tenders

You can transfer an additional tender to a tournament. Click on the second button from the right. Now the following window will open, giving you the possibility to load a corresponding PDF document.

Select a *.pdf file and upload it; the same windows shoes if the upload was successful. You can then close this window:

When the tender is uploaded, the output button is also active or blue. Here you may need to refresh the HTML page by pressing the F5 key.

The document is available for your customers to view in the tournament calendar and at tournament registration.

Please remember to also change the tenders published online if you change the local one. A „Subject to change.“ on the tender can be helpful.

If you want to delete the tender, click on the tender button again and then on **Delete**.

View on your website:

Start lists

Clicking on the button **S** from **Start list** will display the list. If you also want to protect the start list by password, click on the key to the right of the button, then the start lists can only be viewed after successful authentication with the association card. You make this setting in the [Club manager](#).

There are several options for how the start list can be displayed:

- without protection
- all persons with an association card/Access rights
- only members and tournament participants
- only tournament participants
- show only the flight of the logged-in player in the start list

Show only the winners

With this option, only the defined winners from the prize categories are displayed for the respective tournament. This may be useful for smaller departmental tournaments when the very poor results are not visible.

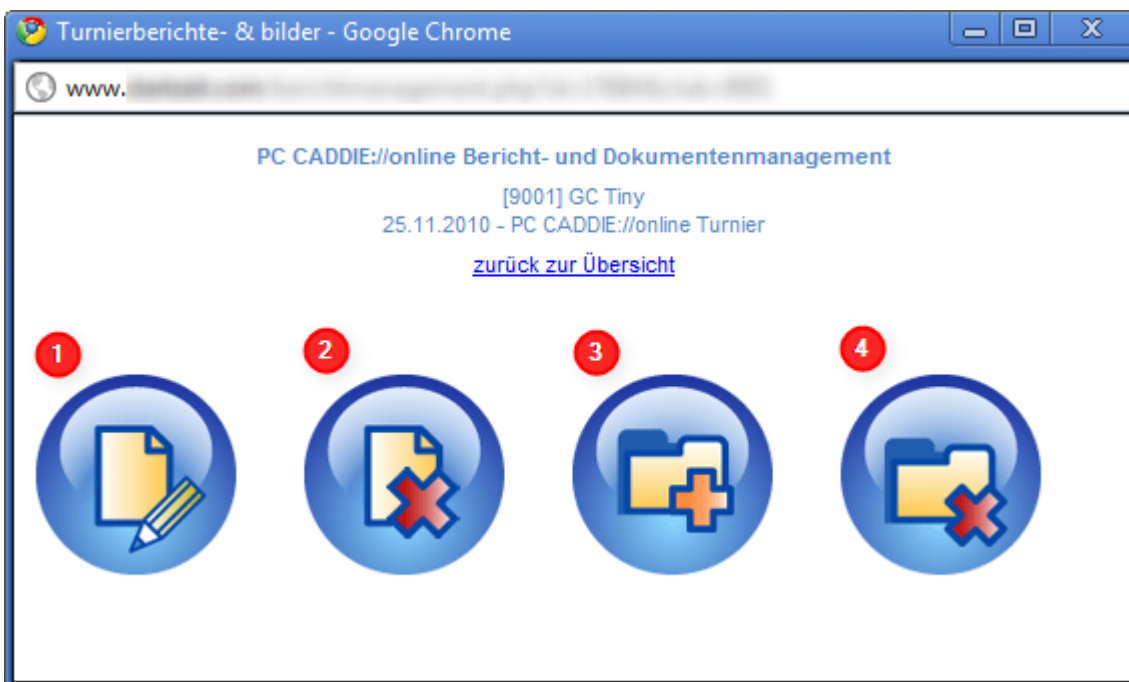

Tournament reports and pictures

In this area you can upload any number of pictures on the server. In addition, a text can also be entered for each image.

First click on the red framed button **B** (B comes from **Bericht**, the German word for **Report**):

The following window opens:

1. Write your tournament report here.
2. Here you can delete the tournament report.
3. Here you can upload a picture. If only one image is uploaded, the image is displayed directly in the results list.
4. Here you can delete the tournament picture.

4. Delete the images that did not fit or were uploaded incorrectly.

Depending on the Internet connection, it may take a long time for the images to be uploaded to the server.

Please refrain from clicking on **Upload picture**, while the upload is in progress.

The button **B** remains active after you have set up a report or uploaded images.

Sponsors' logos

Use this button to upload sponsors' logos to a tournament.

!:Please note the hint about the size of the image, then follow the order:

- Chose a .gif **Image**, with the maximum size 100×60 Pixel.
- Now tick where the logo should be displayed.
- Now you can **Upload** the logo.
- Close the window and click on F5 to refresh.

The button is then active:

Events

Even general events such as regular evenings, meetings, etc. can be organized clearly with the sophisticated functions of the tournament, without selecting a tournament type:

Our PC CADDIE://online Tournament caleder can display such events in a separate category. The module [PC CADDIE://online Tournament management](#).
