

Copy open invoices into another area

This function can be used if you want to copy open invoices from one account area to another - for example, if PC CADDIE Support creates another open items area for you. Once the area has been set up, all past outstanding invoices can be transferred from the revenue account. Please modify only the time-frame, not the text:

Transfer open invoices

Target account area: OP

Date: from 01.01.19 to 31.12.19

Text: Rechnungs-Übertrag: <NO>
Rech.:<AREA>-<NO>

OK

Cancel

You must make a [Fast backup](#) before using this function.
